## PROJECTS

### SwoleMates — [CODE](#) | [VIDEO WALKTHROUGH](#)

*A Facebook inspired fitness social media platform for weightlifters that enables users to keep up with their fitness progress and interact with their friends' content.*

Built end-to-end using the Django framework with MySQL, and utilized the CSS framework, Bulma, for a responsive and mobile-friendly design. This project is functional and ready to deploy.

### Job Tracker — [CODE](#) | [PROJECT SITE](#)

*A web application where a user can easily keep track of the jobs they've recently applied to.*

Built from scratch with Django, utilizing the Bulma framework for its design. Implemented the List.js library for table search and sort functionality on the main dashboard to make the data more user-friendly.

### Quizard — [CODE](#) | [VIDEO WALKTHROUGH](#)

*Collaborated with and led a team of 3 other developers to create a quiz platform that allows users to create/take/edit/delete and share quizzes.*

Owned project management from ideation to presentation. Built out all backend processes and functionalities.

This project is functional and ready to deploy.

## EXPERIENCE

### Terminus ABM, Atlanta, GA — Sr. Digital Designer

June 2018 - PRESENT

Led Creative Services team of 4, utilizing the Adobe Creative Suite to turn around personalized animated, HTML5, and static ad sets for customer marketing campaigns.

Managed 40+ customer accounts, communicating directly with Customer POCs. Responsible for more than 65% of all customer requests.

Diagnosed and addressed customer pain points in the request process and brought potential solutions to my manager in bi-weekly meetings.

Balanced as many as 10 customer requests at once, delivering completed products for 100% of requests within a 5 day SLA while my workload increased by 125% year over year.
